

iProformance Digital PALs Complete Pricing

SOLUTIONS FOR HIGH TECH SAVVY PATIENTS IN TODAY'S NEW ECONOMY

Your patients are smart, tech savvy, and demanding. They know all about digital—after all no one goes out to buy an old fashioned standard TV anymore. Patients know and understand the Digital Benefits ... and they want them in their eyewear too.

DIGITAL LENSES FOR EVERYONE ... DESIGNED AND MADE BY THE LAB YOU KNOW AND TRUST

You've also told us that not all patients can afford the high price associated with many of today's leading brand name digital lenses and no glare coatings. We believe that all patients deserve digital lenses with a premium no glare coating. Introducing iProformance with Crizal Easy—designed for the tech savvy, value oriented patients.
